Case no: 25891-2021

## Renewal of No Objection Letter for EGR Low Sulphur Water Treatment System (WTS)

MAN Energy Solutions (MAN ES) has No Objection to the usage of Boll & Kirch Filterbau WTS with our MAN B&W two-stroke engine designs with Low Sulfur EGR provided that the recommendations in our prevailing engine-type specific guidelines are followed.

Engine-type specific guidelines, engine-design, operation pattern, legislation and economic conditions all influence choice of WTS in a direct or indirect way and they are all subjected to changes. As a consequence, MAN ES reserves the right to revise or withdraw the No Objection.

Quality assurance and monitoring of product performance are important. We expect that Boll & Kirch Filterbau has processes in order to assure that the quality of the product is acceptable and suitable for its intended use.

As the WTS is neither produced or installed nor sold by MAN ES, MAN ES cannot be held responsible for any damage to the engine or engine components that may be caused by the use of the WTS.

Only the full and complete version of this No Objection Letter may be reproduced and/or displayed by the receiver.

This No Objection is valid three years from date, that is until **[08.19.2027]**. Before the period is ended Boll & Kirch Filterbau, can apply for a renewal of the No Objection.
